Expert talk on 21 Feb 2015 by Mr Prashant sipani

Name of the expert- Mr. Prshant sipani

Topic-financial Derivatives and commodity trading

Timings-1.45-3.30 pm

Content of topic-

Mr Prashant sipani (CA, CS) has provided deep insight in to introduction to derivative pricing, risk management and portfolio optimization. He has discussed in depth about the emerging issues in derivative commodity market and trading mechanism. He has emphasized the role of securities and exchange board of India (SEBI) as a regulator of the market and the developmental role played by it. He showed how optimal trading decisions can be reduced once risk has been quantified by introducing risk adjusted performance measures.

He also discussed about the recent trends in financial engineering
