One thing to remember is that you're not alone, there are lots of people who've struggled with job searches and staying motivated but have pushed through and found the job of their dreams. The aim of organizing a Job Fair at RIET is an effort to offer opportunities to those young aspirants who are seeking for job on their profile.

**Kr. Bhim Singh**  
Chairman, RIET

A little inspiration and motivation can go a long way in the journey of a young enthusiastic job aspirant. It would be great if we all had a career coach or mentor who could follow us around every step of the way when we look for a job. Unfortunately, it is not the case with some of the individuals who, although skilled, could not get the opportunity to get right path. Job Fair at RIET is an attempt to provide opportunities to the young individuals to get a path matching their portfolio. I wish all the best to all the candidates who have registered for the job fair.
